

Ice Sampler

Best Selling Ice Sampler

Suitability: Ice, wax and other similar materials
 Type: Single Point
 Material: 316 stainless steel
 Operation: Rotate the handle as the sampler is pushed into the product. The scroll will cut into the product and the sample will be deposited in the sample collecting chamber. Removing the cylinder will allow the sample to be accessed.

Part No.	Length	Sample Volume	Diameter of Sampling Head
6000A-300	300mm	50ml	40mm
6000A-550	550mm	50ml	40mm
6000A-1050	1050mm	50ml	40mm

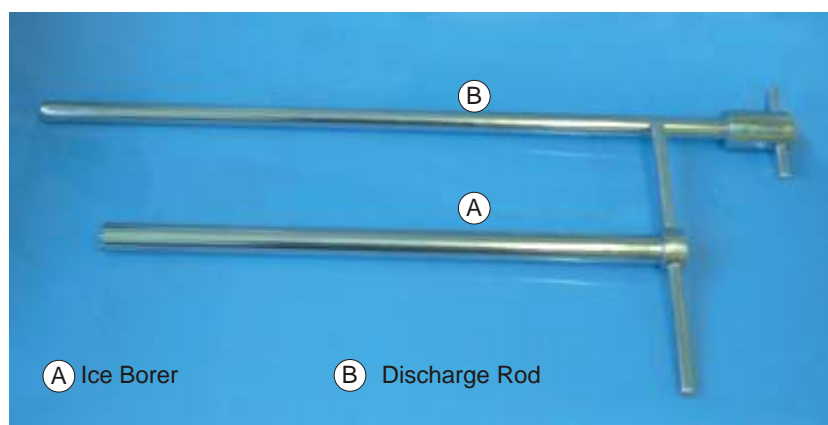

- (A) Scroll
- (B) Removable cylinder

Ice Borer

Robust Ice Sampler

Suitability: Ice, wax and other similar materials
 Material: 316 stainless steel
 Operation: Rotate the handle as the sampler is pushed into the product. The sharp edge will cut into the product and the sample core will be deposited in the tube.
 Push the Discharge Rod down the Ice Borer to remove the sample.

Above- Sharp cutting tip
