

TeleScoop

The Extendable Sampler For Liquid Sampling

This sampler is suitable for taking samples from liquids and suspensions. A range of telescopic handles are available which makes this the ideal sampler to use when sampling from overhead gantries or difficult to reach places etc.

Material: Collecting Beaker - polypropylene
Sampling Rod - aluminium, plastic

- Features:**
- Telescopic handle (lightweight and strong)
 - Range of volumes and styles of collecting vessels
 - Simple and easy to use

Telescopic Handle

Easily adjustable to the required length. Robust, light weight aluminium construction.

Pendulum Beaker

Always swings to the upright position

Angular Beaker

Many settings allow the beaker to be adjusted quickly to the required angle.

Bottle Holder

Suitable for bottles up to 95mm diameter. Price includes one 500ml bottle

Telescopic Rods	Part No.	Length
(For use with items 5065B, 5065C & 5065D)	5065A-1200	600 to 1200mm
	5065A-2500	1250 to 2500mm
	5065A-3000	1000 to 3000mm
	5065A-4500	1500 to 4500mm
	5065A-6000	1500 to 6000mm
Angular Beaker	Part No.	Volume
(Holder & one beaker)	5065B-600	600ml
	5065B-1000	1000ml
